OBJECTIVE:

A highly motivated and passionate Full Stack Developer with hands-on experience in building responsive, scalable, and efficient web applications using modern technologies like React.js, Node.js, and Express.js I have proactively utilized my recent time to undergo intensive learning and hands-on industry exposure, building a solid foundation in frontend and backend development, API integration, database management, and deployment. Focused on bridging the needs of job site, client, and team stakeholders to implement effective web solutions. Committed to collaborating with innovative professionals, contributing skills to real-world projects, and fostering continuous growth as a software development professional.

EDUCATION:

- **B.E in Electronics and Communication Engineering** **Nov 2021 - May 2025**
Sri Ranganathar Institute of Engineering and Technology, Coimbatore
CGPA: 8.2 (Currently Passed out)
- **Higher Secondary School** **Jun 2019 - Apr 2021**
Srinivasa Vidhyalaya Matriculation Higher Secondary School
Aggregate Percentage: 87.73%

TECHNICAL SKILLS:

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend:** React.js, Redux, Bootstrap, Material UI, Tailwind CSS
- **Backend & Database:** Node.js, Express.js, MySQL, Prisma ORM
- **Tools & Platforms:** Git, GitHub, Postman, MongoDB Atlas, Beekeeper Studio, VS Code
- **Deployment:** Netlify.

INTERNSHIP EXPERIENCE:

Full Stack Web Development Intern

Feb 2025 - Present

Self-driven Internship | I-Bacus Tech Solutions Pvt. Ltd., Coimbatore

As an aspiring full-stack developer, I undertook a self-directed internship focused on mastering modern web technologies and building fully functional web applications. This included hands-on experience with React.js for frontend development and Node.js (Express.js) for backend services, along with MySQL and Prisma ORM for database management. The journey also involved real-world debugging, deployment practices, and the use of collaboration tools providing me with a strong foundation for professional development.

- Developed front-end user interfaces with responsive layouts using media queries and modern frameworks such as React.js, Tailwind CSS, Bootstrap, React Bootstrap, and Material UI, implementing

efficient state management using Redux and client-side routing using React Router DOM **for** dynamic and seamless UI behaviour.

- Styled components and UI elements with design libraries including Font Awesome, React Icons, and Bootstrap to enhance accessibility and user experience.
- Built and maintained RESTful APIs using Node.js and Express.js, integrated with JWT and Google OAuth for client-side authentication, and tested endpoints using Postman.
- Created and managed database connectivity for MongoDB and MySQL, implemented full CRUD operations, and used Prisma ORM for schema modelling, migrations, and efficient data querying.
- Integrated authentication and environment configurations, including JWT-based access, reusable middleware, route protection, and controller/utils logic for backend services.
- Built and maintained full-stack applications, managing both data flow and user interaction across the frontend and backend.
- Deployed front-end projects on Netlify, configuring build settings and ensuring responsive deployment behaviour.
- Actively identified and debugged runtime issues, resolving functional bugs and optimizing code structure for better logic and maintainability.
- Used Git and GitHub for version control, collaborating through branching, pull requests, and structured team workflows.
- Implemented scalable web solutions by combining problem-solving skills, real-time debugging, and efficient architecture consistently meeting or exceeding project expectations.

PROJECTS:

Frontend Projects

1.RegistrationForm

Developed a responsive registration form with real-time validation and styled components using HTML, CSS, and JavaScript.

2.FoodApp

Designed a static food listing interface and category-based browsing using React.js and styled with Bootstrap and CSS.

3.CAPTCHAGenerator

Built a custom CAPTCHA generator to verify human input using JavaScript.

4.Calculator

Created a simple, responsive calculator using Javascript that supports basic arithmetic operations with clean UI/UX.

5.TextHighlighter

Developed a feature that highlights user-searched words dynamically within a paragraph using JavaScript.

6.ColorRecognizer

Built a React app that detects and displays a color box based on the entered hex code or color name, with auto text color toggle for contrast.

7.QuizApp(OpenAPI)

Created a quiz application that fetches random questions and answers using the Open Trivia API and displays them interactively in React.

8.WeatherApp (OpenWeatherAPI)

Integrated the OpenWeather API into a React app to display live weather data based on user input.

9.To-DoListApp

Built a task management app using React for adding, updating, and removing to-do items with a clean UI.

10.E-commerceUI

Developed a basic e-commerce frontend layout with product cards interface using React.js and styled components.

Backend Projects

1. Book Store API (MongoDB)

Created a RESTful API using Node.js, Express.js, and MongoDB to perform CRUD operations for managing books in a digital store.

2. Form Validation (Formik + Yup + MUI)

Built advanced form handling and validation using React with Formik, Yup schema validation, and Material UI components.

Full Stack Project

Full-Stack CRUD App (MySQL + Prisma)

Developed a complete CRUD application integrating React.js frontend and Node.js/Express.js backend with a MySQL database, managed using Prisma ORM for schema modeling, migrations, and querying.

TRAINING & CERTIFICATIONS:

- Frontend Development Trainer - Conducted hands-on sessions on HTML, At Bharathidasan College of Arts & Science, Erode.
- Completed self-paced courses on MERN Stack Development via Microsoft. □ Completed Full Stack Development course on I-Bacus Tech Solutions Pvt. Ltd.

LANGUAGES KNOWN:

English (Proficient)

Tamil (Native or Bilingual)

Telugu (Native or Bilingual)

DECLARATION:

I hereby declare that the details furnished above are true to the best of my knowledge.
